**\*Attention! ø of parasol fixture: up to 4 cm / recommended ø of parasol: 150-200 cm**

Element, left combinable  
**722**

Element, right combinable  
**721**

Stool, semicircular combinable  
**530**

Each piece of furniture is handmade and unique. Deviations to the listed measurements may be caused by:  
1. different upholstery materials (fabric, leather), 2. processing of ticking mats, 3. the pressure to combine individual parts, etc.  
The seat comfort of a sofa type with larger seat depth usually differs from one with lower depth.

## FUNKI - How it works !!!

---

1. Take the cushion at its upper side and put the cushion on your knees with the zipper on the bottom. The seamless side faces you.

2. Move the upper part of the cushion towards yourself until the final position is reached.

3. Now you are able to move the upper part backwards until the upper part of the cushion will click into place in the zero position.

4. Now put the cushion in the preferred position (e.g. in the back, seamless side in front and zipper at the bottom). By pulling the upper part of the cushion towards yourself, you are now able to choose among 16 raster positions, however you like it.
